TUESDAY APRIL 26.

The Atchison, Topeka & Santa Fe railroad company is said to have closed contracts in England for \$1,000,000 worth of steel rails.

The weekly report of the visible supply of grain shows a decrease in wheat of 1,935,000 bushels, or a decrease of 818,000 bushels and in oats an increase of 211,000 bushels.

In responding to an alarm of fire in Chicago yesterday, Engine No. 14 upset at the corner of Chiesco and La Salle avenues, severely injuring the engineer. It was a general alarm, twenty-five companies responding to the call.

Mayor Reeho, of Chicago, last evening appointed O. H. Horton, corporation counsel, B. T. Nicholson, prosecuting attorney and George B. Swift, commissioner of public works. Chief Bersold and Swannie, of the police and fire departments, were reappointed.

The 179 cities of over 10,000 population in the country, which are entitled by law to a free postal delivery after July 1, will have to be content with the shadow instead of the substance. Owing to the failure of the deficiency bill there are no funds to carry the provisions of the law into effect.

The Pennsylvania supreme court has rendered a decision to the effect that an express company, unless it can positively prove that there was no negligence on the part of its officers and employees, is liable for the full value of any package that is intrusted to its transportation and delivery.

Charles B. Alexander, a New York lawyer, is soon to wed the daughter of the California millionaire Crocker, and it is announced that her father's wedding present will be a handsome New York residence and a check for a cool million. It is as good to be the son-in-law of a millionaire as to be a millionaire oneself.

A movement has been started among the heavy stock and grain shippers and jobbers in Iowa to induce the governor to call a special session of the legislature to legislate on the question of transportation. There is a widespread dissatisfaction over the alleged perversion of the inter-state law by the railroads.

The amount of money in the east that is seeking safe investment was indicated recently in Wall street, when subscriptions were opened for the stock of a new Equitable Gas company at Utica. Less than \$300,000 was required, and about three times the amount was subscribed in less than an hour after the opening of the books.

The suit of Hon P. T. Barnum against the Grand Trunk Railway for damages on account of Jumbo's death, has been settled. The suit was for \$100,000. It is said that the Grand Trunk company agreed to pay \$5,000 in cash to Mr. Barnum's firm, and haul the circus, eighty cars, over their roads free during the coming season. This is virtually a settlement for about \$10,000, as Barnum's expenses on the same railway last year were about \$1,500.

The Panama Star and Herald of the 30th ult., declares that "there is absolutely no cholera in Panama or any other part of Colombia." In a letter from Lima, dated the 22d ult., published in the same paper, it is reported that the disease had not up to that time appeared in Peru, and that the health of Lima and Callao was good, although flour and meat had become costly luxuries. Cholera was raging in Eastern Bolivia, and was said to have appeared at Artofogato.

Now and then there is a gleam of sense in the utterances of the Canadian press upon the fisheries question. The St. John, N. B., Globe had a gleam when it said: "The country will soon wake up to the folly of the government's policy in regard to the fisheries. That journal at one time, almost single-handed, dissented from that policy. It has been followed in ignorance, and is now being pushed to the verge of what seems almost like insanity. We are glad to find some signs of awakening to our danger. We warn the people of the maritime provinces that the first act on the part of officials to harass American trade will, in all probability, compel the president to put in force the law, and that the burden will fall upon vessels and trade in these three provinces."

John E. Burton may not have made a million on the Gogebic range, but he certainly made something, and that something is so strewly freighting from hazardous association with fluctuating mining stocks and safely investing in good, stable property. He has within a few days past, says the Madison Journal, bought up some of the most valuable property in the city of Geneva, this state, such as Oakwood seminary—a boarding school for young ladies. The Geesey flouring mill and the entire water power has also become his possession. He is also having erected a large three story factory near the Northwestern depot, in that city, which will run three distinct departments of manufacture, and employ a large number of hands. He has also bought the Lake Geneva steamboat line, comprising three large public steamers, and is having them fitted up and masted for the approaching summer season. Aside from these purchases he is putting some of his quick accumulations into a magnificent home for himself at Geneva, and has secured possession of a vast amount of valuable land along the shores of the beautiful lake near by.

FOOLED WITH A WAR RELIC.

Six Persons Seriously Injured by the Explosion of an Old Shell.

Harpers Ferry, Md., April 26.—An old shell exploded here Monday with serious results to six persons. The shell was an army shell which had been standing for twenty-three years on the side of Bolivar Heights, one of the most picturesque elevations overlooking Harper's Ferry. Sunday afternoon Frank Willis and Jesus Jones probed the old shell with an iron rod for the purpose of getting the powder out of it. About fifteen or twenty people congregated about the place to see the performance. The rod somehow ignited the powder, and the shell exploded.

Agnes Willis, 14 years old, had her right eye blown off above the brow. Both legs are so badly shattered that she is not expected to live. George Willis, brother of Agnes, 9 years old, had his leg broken. Frank Willis, the father of the two children, and one of the men who were experimenting with the bomb, was badly burned about the face. Jesus Jones and his hand broken, and William Turner lost a foot. Edward Polk had his leg and jawbone broken, and was otherwise wounded about the head. He is not expected to recover.

The force of the explosion was terrible. Piece of the shell penetrated the house owned by Mr. Coddell and torn away window and plastering. A piece also went through the dwelling of Edward Polk, more than 100 yards distant.

Limitation for Control of a Railway.

NEW YORK, April 26.—The supreme court general term Monday denied the application of the St. Louis & San Francisco Railroad company for a stay of proceedings before the court in the matter of the partition of the Oppenheim interest; for an order to compel the company to furnish a list of stockholders for the transfer book.

The court holds that the transfer agent of any corporation existing beyond the jurisdiction of the state is required to exhibit to any stockholders the transfer book and list of stockholders of such corporation, if it is in his power to do so.

The decision, so far as it goes, is a victory for the Oppenheim faction, which is waging a vigorous legal fight against the Solingen interests for control of the company.

Murdered Her Own Babe.

NEW YORK, April 26.—The coroner received an anonymous letter Monday indicating that Mrs. Schalmor, aged 24, daughter of Jacob Hasmeyer, of 24 East Mulberry street, had murdered her newborn child and concealed its body. Upon investigation what appeared to be a full-grown infant was found hidden in a sack in the apartment of the suspected woman. The body was frightfully mangled and buried, its arms and legs being severed from the body in order that it might the more easily be hidden. From admissions, corroborated, it is ascertained that Mrs. Schalmor was confined last Wednesday night, but that nobody saw the child. Mrs. Schalmor was arrested. She had been a widow just a year.

She Fixed His Blouse.

We had gone into winter quarters at Charleston, W. Va. Some new recruits had arrived for the Thirty-third Ohio, and one of them was finding fault with the government for not putting more pockets in his blouse. It happened that the wife of Gen. R. D. Hayes was on a visit to the general and was staying at headquarters. Some of the boys took advantage of the fact to get a pocket put in his blouse; that Gen. Hayes kept a secretary at headquarters on purpose to examine their clothes and sew on buttons.

"Yes," said one, "the general is always on the lookout for the welfare of his men. Only the other day he had a man arrested for sewing on some buttons. The idea of a soldier patching his clothes when the general has a woman for that purpose! If you want another pocket in your blouse take it to the general; you will find the lady, there. Tell them what you want and they will soon get it."

It was soon on his way to headquarters, where we watched to see the fun. The recruit marched up and the general returned his salute and said:

"Well, my good man, what can I do for you?"

"General, the boys told me there was a woman here to sew for the soldiers, and I wanted to get a pocket put in this blouse."

Before, the general could answer Mrs. Hayes spoke up and said:

"Certainly, certainly; leave your blouse for an hour or so and you shall have a pocket in it."

When the soldier returned with the pocket in his blouse, and the boys told him who the lady was, we realized that he had carried the joke too far and had incurred one of the best and truest women in the world.—National Tribune.

Christian Converts from Buddhism.

London, April 26.—The General committee of the Society for the propagation of M. of Christ, has accepted the new proposals offered by his lordship's agent, and the execution will be discontinued. The acceptance by the remains of Lord Lansdowne's concessions is understood by both sides to be a final settlement of the matter in dispute.

O'Brien Postpones a Trial.

DUBLIN, April 26.—Mr. William O'Brien, editor of the United Ireland, who, together with Mr. Kilbride, one of Lord Lansdowne's devoted tenants, was to have left on the steamer Arahura, en route to Canada, with the avowed intention of fomenting an agitation against Lord Lansdowne, has decided to postpone his trial, the consequence of a new offer having been made him.

The offer is extended to all tenants, including those who have been evicted. Mr. O'Brien has postponed his departure for a week pending negotiations on the basis of the new offer, but has retained his tenancy.

Another Amendment Already.

LONDON, April 26.—The amendments to the Irish land bill, of which malice have been prepared up to Monday night already exceed the extraordinary number of 1,000.

It is becoming hourly more evident that the bill will be passed in its present shape. The object of the vast majority of the amendments is to compel modifications in the Irish land bill.

A further reading of the bill will be given on Tuesday night.

This will render the passage of the measure without modification impossible during the present session of parliament.

Getting Ready for Emergencies.

LONDON, April 26.—A party of English engineers and military experts, who were recently furnished by the War Office of Cabul, has started on a surveying expedition for a road between Cabul and Candahar, bringing the capital of Afghanistan in direct communication with British India.

Equipping an Artillery Train.

BROCKTON, Mass., April 26.—In the police court Monday morning the ex-Rev. Arthur Morrison, of West Bridgewater, was arraigned on a charge of larceny.

The charge is that he stole \$8 to \$9 in Baltimore, April 26.—The chamber of commerce, 64 to 35, has adopted a resolution affirming unabated confidence in free trade policy.

Royalists Gone to the Yosemité.

SAN FRANCISCO, April 26.—Prince Leopold, of Prussia, has gone to the Yosemité, Prince Esterhazy, of Austria, started for Montreal Sunday.

A Gift for All.

In order to give all a chance to taste it and thus be convinced of its wonderful curative powers, Dr. King's New Discovery for Consumption, Coughs and Colds, will be, for a limited time, given away. This offer is not only liberal, but shows substantial faith in the merits of this great remedy. All who suffer from Coughs, Colds, Consumption, Asthma, Bronchitis or any affection of Throat, Chest, or Lungs, are especially requested to call at Frank Sherer & Co's drug store, and get a trial bottle free, large bottles \$1.

Liberals Demanding That the Uncrowned King Do Something Aggressive—The Irish Leader Gathering Evidence—Puts In Store for the Land Bill—Schmeidt—Case—An Offer from Home.

LONDON, April 26.—The great mass of real estate speculators now known to be Walker, Wood county, Ohio, and many capitalists from Cleveland, Toledo, Sandusky, Mansfield, Millersburg, Marion, and Londonville are buying up land in large quantities, land worth \$40 to \$50 per acre two months ago is now selling for from \$200 to \$500. The cause of all the excitement is the recent drilling of several of the largest gas wells in America in the immediate vicinity. Oil also exists in abundance, the last well drilled a few days ago flowing 2,500 barrels per day. E. L. Shepard in January purchased 214 acres, encompassing the junction of the Toledo, Columbus & Southern, and Paducah, Ohio, railroads, for \$45,000, and the former proprietor was offered \$80,000 but got a few days afterward. This tract with others is now about to be put into a syndicate by Shepard, who has a standing offer of \$200,000 for that and several other options from parties outside of the syndicate. Senator Sherman is largely interested in the vicinity.

Watson and Davidson.

At the last cabinet council the question of appointing a parliamentary committee to investigate the alleged branch of privilege by The Times in publishing the Parnell letter was exhaustively discussed. It was agreed without a dissentient to take no action in the matter and leave the initiative to Parnell and his friends.

It is stated that the solicitors of the treasury have in their possession several letters written by Parnell to Patrick Ford, Parnell's attorney, and that the solicitors have referred to the technicalities of handwriting experts to closely resemble that of the letter published in The Times as to throw the gravest doubt on the statement that the letter was forged.

Parnell has gathered evidence oral and written, for use in the event of necessity arising, proving that the sentiments expressed in the Times letter were contrary to those he entertained and expressed at the time of the P. W. Park assassination.

In the course of conversation Monday evening Broderick, Conservative member for Guilford, in reply to a direct question from Sexton, admitted that he had in a recent speech alluded to the facsimile letter published in The Times as "Mr. Parnell's letter," and that whenever he might have occasion to refer to it in his speeches he would continue.

In the absence of any action in a court of law, it is to be expected that Mr. Stevenson will unhesitatingly prosecute. Watson and his wife have been arrested by the police, and he has been charged with the offense of having been guilty of a breach of privilege, inasmuch as such designation was tantamount to imputing falsehood to Parnell.

The speaker said that Broderick had not referred to anything that Parnell had said or done in the house of commons, and therefore his characterization of the letter did not come within the definition of a breach of privilege.

TOBACCO NOTES.

This Year's Accrue to Be Reduced Over One-Tenth.

Quite a number of additional plant bids have been made ready during the past week. Except for this the tobacco crop has had a very quiet time of it. Such new leaf as was sold were at low prices. Even these most anxious to sell feel that no money can be made in the transactions, and the rush is therefore not very pronounced. About one-third of the new crop has been bought up to this date.

Increased activity prevails throughout the New York market. The supply remains so limited that very little or no attention is being paid to name of crop or year of growth. What are wanted are wrappers that are not too thick.

Nothing exists to mar the fine prospects for a splendid year's business.

The '86 tobaccos, say the Journal, are improving in the hands of packers—the extent of improvement generally keeping pace with the quantity on hand.

Ohio continues to have a fair business although the grade of goods sold is low.

Pennsylvania, Massachusetts and Connecticut are all bountiful dull times. It is safe to say that this year's acreage throughout the country will be reduced over one-tenth.

Funeral services over the remains of Mrs. Abbie DeForest, of Chicago, were held yesterday afternoon. The remains arrived at half past one and were taken from the depot to Oak Hill cemetery where they were laid at rest. Mrs. DeForest was a sister of Mr. H. Boyce of the first ward. Three children accompanied her remains to this city.—Mrs. Miriam Zee, of Chicago; Mr. Schuyler DeForest, of Chicago and Mr. Thomas DeForest, of Rockford. They are guests at the home of Dr. and Mrs. E. Loomis.

Frank L. Hayden received this dispatch from Racine, Michigan, to-day:

"Will you edit the Herald for me, at good wages? The old firm has failed." It was signed by T. S. Prince, one of the proprietors of the Herald while Mr. Hayden was its local editor. He has now assumed full control. The offer was a very flattering one, but after due consideration Mr. Hayden thought best to decline. His Janesville friends will be glad to know that he is still to be with us and of us, and among us.

A Janesville man who spends ten or twelve dollars a year for advertising and considers himself quite a liberal supporter of the local press went to Chicago the other day to see how much an advertisement would cost him there.

He returned very much surprised. A column in the Tribune for one year, he found would cost him \$20,000. He was told that this rate should be considered very reasonable, as papers like the New York Herald charged \$40,000 for the same space, and gives no choice of position even then. Nowadays when the merchant orders a ten-line advertising notice, he does it in a very matter-of-fact way. The idea that five dollars' worth of patronage gives him a controlling voice in the editorial management, has been entirely dissipated.

Mr. George C. Milo, the well known tragedian, is to appear at Myers' opera house next Thursday evening in Tom Taylor's grand play, "The Fool's Revenge." It is a striking indication of the progress of our city, that Manager Myers is enabled to obtain attractions of this order, and it is to be hoped that they may be encouraged by a liberal patronage.

The Chicago Tribune contains the following startling notice:

"Miln secured a place in the foremost rank, among the

veterans of an overcrowded profession. It is rumored that this will be his last tour of the United States for some time as he begins an engagement in London, England, next August, and will probably not return to America for three or four years. Of his career up to the stage only a few words need be said. He first appeared as Hamlet in the Grand opera house, Chicago, and made an immediate hit."

A TROUBLEOME NOTE.

Concerning Which a Note is Pending Before Judge Bennett.

In May 1885 a note for one thousand dollars was signed by Martin McLaughlin and Maggie Galbraith. It passed from the signer's hands and was held first by Wheeler & Stevens in exchange for real estate. Wheeler & Stevens transferred it to a third party, and he in turn sold it to Mrs. Jane Dodd, of Milton. Meanwhile the signers denied that the note was binding. They claimed that it had never been given to Wheeler & Stevens and that the firm had gained possession of it by irregularity. The master is now before Judge Bennett. Mrs. Dodd asked for payment on the ground that the note has passed into the hands of an innocent third party, while the defendants deny that the transfers were made in good faith.

TRANSFORM OR MUCK COUNTY STEEL ETC.

The following real estate transfers were recorded during the week ending April 15, as reported by O. E. Bowles, Real Estate and Loan Agent:

James T. Cunningham to Ole Gubakken, Jr., in block 2 Walker's addition, to B. D. D. Bennett, \$1,000.

John W. Hinckley to Daniel Thompson, \$1,000.

John W. Hinckley to David Daniels, Jr., \$1,000.

H. Davies to C. E. Holdridge, Dr. Joseph Whiting, Jr., H. V. Allen and David Jeffries, who acted as the committee.

Among the guests present from out of town were, Mr. and Mrs. Ed. Loomis, Miss Lulu Brown, Nellie Carr, Alice Payne, Nellie Brown, Nettie Lillard and Lizzie Edwards; Messrs. Tom Brown, Ed Hall, Frank Morse, Lon Bump and Ed Baily, all well known society people of Beloit; Charles Bingam, Charley Hemming and Frank Farrowsorth, of Rockford; Elmer Martin, of Chasago. There were also several from Madison, Harvard, and Woodstock.

BALEROID MATTRESS.

Resolutions Adopted by the Business Men's Association Last Evening.

The Business Men's association held a special meeting last evening to consider the question of what could be done to induce the C. & N. W. R. Co. to furnish a better service on the Evansville cut-off. The meeting was called to order by President O. E. Novak, and P. J. Mount was elected secretary.

Mr. Stanley Smith said that he had signed the call for a special meeting, believing it in the interests of the city that something be done to induce the Northwestern Company to comply with the understanding regarding a more complete service over the Evansville cut-off.

In a conversation with Mayor Winslow last evening, that gentleman had said that in his judgment the company were not running as many through trains as the people bad been led to believe they would, and that the matter would be discussed at the next meeting of the council.

Mr. Smith presented a series of resolutions, which brought out a spirited discussion, and after being slightly amended, were adopted as follows:
